Summer, don't leave us yet!

We've been having a blast and can't quite believe that summer is... almost (?)... over.

All season long, the Climate Resources Group team has been busy making fall travel and speaking plans, becoming intimate with energy efficiency programs across the country, and kicking off a partnership program, to name a few.

We plan to bring you more regular short updates from our corner of the world and hope you don't mind us keeping you in the loop. Let us know if it gets to be too much.

Lastly, please feel free to [forward this email to a friend](#) if you

think they may be interested in staying on top of energy and sustainability issues in the indoor hort and cannabis industries.

Find CRG this September at NECANN Boston

You are cordially invited to join us in Room 101 at Hynes Convention Center on Friday, September 10 at 3pm for a talk about how cultivators can increase their profits by embracing sustainability and striving for maximum energy performance.

CRG's [Sam Milton](#) will join Trella's [Matt Waddell](#) and [Nick Collins](#) from CollinsCEA in what we hope and expect will be an engaging, educational, and entertaining panel discussion.

Your price of admission is a simple [ticket](#) to the conference, but if you'd like a sneak preview feel free to connect with us anytime by [scheduling a call](#), [dropping us a note](#) or [filling out this form](#).

Partner of the Month

In this section, we will be highlighting companies and/or organizations whose mission(s) align with ours and whom we believe provide a valuable service to our clients and colleagues like you.

As our inaugural Partner of the Month, we are pleased to showcase

Cohen Law Maine and its Managing Partner Jill Polster.

Jill constantly impresses us with her dedication, passion and commitment to her clients and to the Maine cannabis industry writ large. If you are looking for legal representation as you grow your company from concept to a compliant, revenue-generating, branded cannabis company, we can't recommend Jill and her team highly enough. Let us know if you'd like an introduction.
